**Re: Proposals of new Eventing Scoring system for 2007**

Dear Secretary General,

## INTRODUCTION

Further to discussions in Eventing and taking into account a wish by all of promoting a transparent sport well as developing a sport which is understandable to a large public than only initiated, the Eventing Committee have in the past months had several discussions with riders and mandated an independent group to look at new scoring possibilities.

The scoring system is related to transparency and any scoring system needs to be designed in such a way that it can be easily followed and understood by the public, the media, and TV in addition to those intimately involved in the sport. The individual performances of each rider and horse need to be comprehensible if the riders have an outstanding result in a special part of the competition or merely a sufficient one.

The results have to be easily understood and classified. As a result of the modern media, the spectator has to be able to make out the individual and the total result at "the first view". For some years now this system has proved itself in pure dressage. Here the results are published in percentage today.

Three things must be considered in the new scoring system:

1. The present judgement of the three parts of Eventing (Dressage, Cross country and Jumping) change of scoring system should not create any shift of balance of the tests. The influence of Cross country phase should still be maintained.
2. The new scoring system has to be designed in such a way that the solid and correct training of rider and horse is rewarded.
3. The safety aspect has to be given special consideration. It is an aspect which needs to be taken into account especially due to the time factor in the cross country part.

## PROPOSAL

1. The following **starting points** for a new scoring system were established:

- o A reworking of the scoring system be considered in order to ensure that the sport can be more generally understood, and that the individual performances be better understood.
- o Importance of achieving a general understanding rather than internally.
- o Efforts to try to develop a simple, easily calculable and understandable system

- o Consideration of having a positive scoring system and presenting positive scoring closely connected to the current system. No changes to the weighting of the parts of the tests were foreseen.
- o A modified scoring system should promote better riding. Safety Aspects should also be taken into consideration.
- o The new scoring system should be uncomplicated in its use for the three profiles CIC/CCI (Short format, CCI long format).

**2. Dressage:**

- The result achieved for the dressage should be counted in total without the inclusion of a Multiplication factor. An 80% result should result into 80 plus points.
- One thought is that Riders with less than 45% or 40% should not receive a starting permission for the Cross country.

**3. Cross Country – initial thoughts**

- Every refusal should be awarded 20 penalty points
- For a fall, as before, 65 penalty points should be awarded.
- The fall of a horse or 3 refusals in total on XC should result in elimination.
- The following should be awarded for time faults (which overall are more influential than refusals or falls):
  - a) 0,5 points for every second exceeding the time allowed (for all phases of the cross country and show jumping phase): -> change of the existing weighting, example:
    - 2003 Rules: 10% Dressage = 15 penalties = 37,5 Sec XC.
    - New weighting 10% Dressage = 10 penalties = 20 secs. XC
  - b) In cross country 0,4 points and if necessary 0,25 points or 1 per 4 sec. in the Show Jumping. -> change of the existing weighting, example:
    - New weighting 10% Dressage = 10 Penalties = 25 secs. XC
  - c) In Cross Country and Show Jumping in line with FEI-Rules for Jumping: one penalty point for every 4 seconds. -> Very small changes to the weighting (safety aspect!), example:
    - 10% Dressage = 10 penalties = 40 secs. XC

**4. Show Jumping**

- Time faults (See Section regarding Cross Country)
- When the Show Jumping takes place before the cross country, a start, due to safety aspects, is only possible when no more than 20 penalties are added in SJ to the rider and horse.

**5. Transparency of the Results**

For examples please refer to documents on FEI website:

[www.horsesport.org/Eventing/Workingdocuments/From\\_the\\_Committee/Review\\_of\\_scoring](http://www.horsesport.org/Eventing/Workingdocuments/From_the_Committee/Review_of_scoring)

Referring to Annex B attached compared to the current classical method of scoring Annex A. The results in Annex B can be distributed to the media where necessary as follows:

In every discipline a 100% result can be achieved. When for example both the Cross Country and Show Jumping are completed without faults a score of 100% in each discipline should be added to the full percentage result from the dressage. The total would then be divided by 3.

This openness in the scoring should prove to be a positive move. Through this method of scoring the winner and highest placed riders should receive a

score of between 80% and 90%. This is a great possibility for Eventing to more open and media friendly but needs to be discussed due to the transparency of the interim results after each part of the competition especially with the media.

The qualifying results can therefore be understood to at least 50% per test.

By the new but classical scoring system the acceptance of the qualifying result could be at 0 %.

The above listed considerations are in draft and need to be discussed on all International levels. They must be looked at from all aspects of the sport and any mistakes or errors identified in a wide range of "Shadow scorings".

A first use of this system is not envisaged before 01.01.2007.

**TIMEFRAME:**

**March 2005** – Proposal to NFs, Eventing Riders Association (ERA) and Eventing Officials Club (IEOC) for consideration. Eventing Committee to discuss with the Media, TV and others.

**End July 2005:** Deadline for comments to be received by NFs, riders and IEOC.

**During 2005** – Shadow scoring on 2005 events to find best solution for time penalties

**October 2005** – Finalization of proposal by Eventing Committee

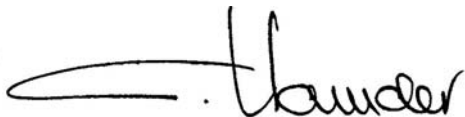

**January 2007** – Implementation of eventual new system

Looking forward to receiving your comments by end July 2005, we remain,

With kind regards,

Yours sincerely,

**On behalf of the FEI Eventing Committee**

Catrin Norinder  
Manager Eventing & Olympic Department
