Annex V “Knock Out Competition

Article 272

Order of starting in the qualifying rounds
(in accordance with the qualification course)

Annex VI

Rotating the Starting Order in Individual Competitions

1. At Events where the competitors are allowed to ride two or three horses in individual competitions, the following procedure is acceptable to achieve rotation of the starting order in the individual competitions included in the programme:

1.1. if the schedule provides that the same horse is allowed to take part in more than one individual competition per day and throughout the Event, the number of horses must be divided by the number of individual competitions;

1.2. if the schedule provides that the same horse is allowed to take part in only one competition per day and throughout the Event, the number of horses must be divided by the number of days on which individual competitions take place.

2. At Events where the schedule provides that competitors are allowed to ride only one horse in each individual competition, the competitors are drawn and their horses carry successive numbers:

First competitor: 1, 2, 3 (number of his horses)

Second competitor 4, 5, ...

The rotation follows the same procedure as in paragraph 1., but in this case the number of competitors must be divided by the number of individual competitions or by the number of days on which individual competitions take place.

Annex VII

Veterinary Examinations, Horse Inspections and Passport Controls (Interpretation to article 1011 of the Veterinary Regulations) with alterations as mentioned here in.

1. Examination on arrival

On arrival, or as soon as practicable following arrival, each horse must be examined by the Veterinary Delegate, or Deputy, to establish the general state of health, identity and vaccination status of the horse. This examination is specifically aimed at detection of contagious conditions and should preferably be carried out before the horse enters the event stables.

The Examination should be conducted as follows, bearing in mind that the horses should proceed to their stables as quickly as possible and with the minimum inconvenience to all concerned:

1.1. Briefly check the identity of the horse by comparison with the identification page in its passport.

1.2. Check that the vaccination requirements, currently in force, are in order and that all other details in the passport are correctly completed. The paper work involved in the passport control relating to vaccinations can also be dealt with at a later stage.

1.3. Check the age of the horse, if the event or any competition is limited to horses of a specific age.

1.4. Carry out a clinical examination to ensure that the horse is not suffering from any infectious or contagious disease. It should be stressed that an examination for soundness is not part of the procedure.

Any significant passport irregularities in the above should be drawn to the attention of the President of the Appeal Committee and the President of the Ground Jury, before the first horse inspection. The President of the Appeal Committee must deal with such irregularities before the horse is allowed to compete.

2. Horse Inspection

This must be carried out not later than the afternoon of the day preceding the first competition. Chefs d'Equipe and/or Persons Responsible should arrange a specific time for their horses to be inspected within the time specified in the programme. This should be available and ready at the Secretary's Office at least two days before the first competition, to avoid unnecessary delay for all concerned.

At World Cup Finals, World and Senior Continental Championships and Olympic Games, a second Horse Inspection will be scheduled prior to the start of the final competition.

The Horse Inspection must be carried out by the Inspection Panel (Veterinary Commission / Delegate and Ground Jury). In a doubtful case, the Panel may direct that the horse be referred to an officially supervised holding box for a further examination by the Examining Veterinarian. The horse returns for a re-inspection by the Panel immediately after the last horse has been inspected, or at a suitable break. The Examining Veterinarian reports findings to the Panel. In the event of a disagreement, the President of the Ground Jury will make the decision, which will be announced immediately.

Re-inspection of horses referred to the Holding Box is permitted the day after the horse inspection.

Prior to this the Ground Jury, Veterinary Commission/Delegate and the Examining Veterinarian must confer about the horses listed for re-inspection. The procedure for re-inspection will consist of a brief clinical examination before walking and trotting the horse in front of the Inspection Panel. If a horse is accepted at the re-inspection it may be required to undergo immediate medication control testing.

If a horse is clearly unfit to compete and no member of the Ground Jury is able to be present at the inspection, the Veterinary Delegate may recommend that the President of the Ground Jury eliminates the horse without further re-inspection provided the horse has been examined in the Holding Box.

The protocol for the Horse Inspection is conducted as follows:

2.1. Each horse must be presented in either a snaffle or double bridle. Any other harness or equipment, i.e. rugs, bandages, etc. must be removed. No exception to this can be allowed.

2.2. No horse may be presented with its identity concealed in any manner by the application of paint or dye.

2.3. The inspection must take place on a firm, level and clean non-slip surface.

2.4. The horse is initially observed, by the veterinary member of the Panel, for any obvious sign of injury or disease. Eventual remarks should be recorded.

2.5. The horse is then walked and trotted for any obvious signs of lameness or unfitness.

2.6. Chefs d'Equipe must be present with their team horses in addition to their grooms and/or their competitors.

2.7. Persons Responsible (competitors) must be present with individual horses, in addition to their grooms.

2.8. Competitors must present their own horse(s) at the Horse Inspection. The President of the Ground Jury may relax this rule for a competitor if requested to do so by the Chef d'Equipe or the rider.

It is emphasised that this is not a detailed veterinary examination (see also Vet. Regs Art. 1011) and it should be completed as quickly as possible.

3. Ground Jury, Appeal Committee and Veterinary Commission-Liaison

3.1. Ground Jury

3.1.1. Responsibilities of Veterinary Commission (Art. 1009)

The Veterinary Commission shall report to the Ground Jury (if appropriate before the first Final Horse Inspection) or Appeal Committee on all matters other than those of a purely technical veterinary nature.

3.1.2. Veterinary Examinations, Horse Inspections and Passport Controls (Art. 142 + Art. 1011)

The Veterinary Commission shall report to the Ground Jury any horses considered to be unfit at either the Examination on arrival or at the inspection. If continuing participation is to be considered, such horses must be re-inspected by the Ground Jury together with the Veterinary Commission before they are allowed to compete. The President of the Ground Jury must also be informed of any horses, which have been refused permission to compete by the Appeal Committee.

3.1.3. Selection of Horses to be Sampled for Medication Control (Art 1016)

The President of the Ground Jury together with the Veterinary Commission/Delegate and the MCP Testing Veterinarian, if present, are responsible for the random selection of horses to be sampled during the event.

In addition to horses selected at random, the President of the Ground Jury together with the Veterinary Commission/Delegate and MCP Testing Veterinarian, may decide to select specific horses for sampling. The selection of specific horses may be made at any time during the event.

At World Cup Finals, World and Senior Continental Championships and Olympic Games, sufficient horses must normally be sampled to ensure that the following samples are available for analysis:

- in all Final Competitions for Individuals, the first three placed horses;
- in Final Jumping Competitions for Teams, one horse from among all the horses in each of the first three placed teams;

3.1.4. Abuse (Art 143)

Any case of alleged abuse of horses must be immediately reported to the Ground Jury.

3.2. Appeal Committee

3.2.1. Responsibilities of Veterinary Commission (Art 1009)

The Veterinary Commission shall report to the Appeal Committee (if present) on all matters other than of a purely technical veterinary nature.

3.2.2. Veterinary Examinations, Horse Inspections and Passport Controls (Art. 139 + Art. 1011)

The Veterinary Commission shall report to the President of the Appeal Committee details of any significant passport irregularities as soon as practical, following the Examination on arrival. These matters should be dealt with, in accordance with guidelines issued by the FEI, before the horse is allowed to compete.

If the Ground Jury does not act on a recommendation of the Veterinary Commission not to allow a horse to compete the circumstances must be reported to the Appeal Committee.

3.2.3. Procedure for Sampling (Art. 1019)

A refusal, or wilful obstruction by any person to submit a horse for sampling must be reported immediately to the Appeal Committee.
